

# \$250+ / Day Stable Income?!

## Learn Why [StartRevshare](#) Will Blow All Other Revshare Sites Out Of The Water

### Introduction

Making money online isn't easy. There are tons of systems out there that promise you the world, but very few of them are able to produce a long-term sustainable income.

And even worse, if you don't have time to work 10+ hours a day (who does right?) the odds of ever living the dream life from home are stacked against you. (meaning you'll never achieve it...)

Praise yourself lucky you are able to read this [StartRevshare](#) intro report because today, all of that is about to change for you.

Let me just ask you 1 simple question first:

➔ What if it only took about 10 minutes a day to achieve a \$250/day income?

I know your answer:

➔ "You're crazy that's impossible!"

Now that is the normal answer of any rational person reading this. (am I right?)

Now let me ask you the:

➔ What if online companies like Google, Facebook, Fiverr, discount sites, big advertising companies, popular blogs and forums etc. would share all of their revenue with you, do you still think this is impossible?

Let me introduce you to [StartRevshare.com](https://StartRevshare.com), an advertising website that pays you to advertise!

The concept is very simple:

- ➔ STEP1: You buy an ad pack on [StartRevshare.com](https://StartRevshare.com)
- ➔ STEP2: You promote your website or affiliate offers
- ➔ STEP3: [StartRevshare](https://StartRevshare.com) shares income from sales with you
- ➔ STEP4: Withdraw earnings any time

The ad packs mature at 150%, meaning you'll get 150% cashback on your ad pack purchase. You can choose to reinvest the money and buy more ad packs which accumulate in your account, earning you more and more money every single day.

The payout limit is \$250/day, meaning you can buy just as much ad packs until you reach this goal, bringing you a virtually passive income for life!

## **What Makes [StartRevshare](https://StartRevshare.com) Different?**

If you know the concept, I'm pretty sure you know there are plenty of other revshare sites around. While it's certainly true you can make some easy money on these sites, none of them will allow you to make a full-time sustainable income online forever, period.

[StartRevshare](https://StartRevshare.com) isn't merely one of those revshare sites, because it uses a complete different business model.

Instead of relying on sales from ad packs to pay out members, [StartRevshare](#) builds a complete network of sites that generate revenue.

What does this mean?

This means that the business model is 100% sustainable because it generates external revenue!

Let's face it, if a revshare site doesn't have other income streams, it's bound to run on a deficit creating a structural problem that can't be solved. In fact, the deficit only increases over time.

No matter how much money you make initially, you will never have an evergreen secure income stream to live the good life forever.

**Understand this, and you won't invest in ANY other site other than StartRevshare from this day forward!**

So how can [StartRevshare](#) secure your income streams?

Here is an overview of the external platforms built around the [StartRevshare](#) platform that will help you get higher, faster and evergreen payouts from the amazingly easy revenue sharing business model on [StartRevshare.com](#):

→ [Startpeeps.com](#)

It all starts with building a community of like-minded people. [Startpeeps](#) is a platform similar to Facebook where members of the Start Network can gather and be social, just like they already do on other social media platforms every single day.

It's no secret that a company like Facebook makes billions of dollars every single month from the users that visit and put content on their

site. All revenue generated from [Startpeeps](#) will be used to pay the revenue share of people buying ad packs on [StartRevshare.com](#).

### → Startpeepsmarket

The Startpeeps market is a place where members of the community can buy and sell any type of product you can imagine. If you know how popular a marketplace like Fiverr.com is and how much revenue it generates on a daily basis, you surely understand this platform will help [StartRevshare](#) pay out their members forever.

The way the marketplace will generate revenue is very similar to how it works on Fiverr.com. For every \$5 purchased, the site earns \$1. All this revenue will be used to members buying ad packs on [StartRevshare.com](#).

### → Startpeepsfunding

I'm pretty sure you have heard about crowdfunding websites like Kickstarter, Indiegogo or gofundme. These platforms raise millions of dollars for creative projects or charities every single day. Startpeeps funding is the crowdfunding platform built around the Start Network so members of the community can either raise funds or donate.

Just imagine how many funds will be raised when thousands of people reach the \$250/Day goal on [StartRevshare.com](#) and are willing to make the world a better place. 😊

As on the other crowdfunding platforms, Startpeepsfunding.com will earn 5% of the total amount donated on every project, which will in turn be used to pay out people buying ad packs on [StartRevshare.com](#).

### → Startcouponcodes

Shopping online is something all of us are doing more and more on a regular basis. On top of that, everybody likes a discount whenever they buy something online. Coupon codes sites are immensely popular for this reason, so the Start Network has built its own coupon code site where you can find coupons from 1000's of online retailers.

Whenever somebody clicks through to a retailer and uses a coupon code found on [Startcouponcodes.com](http://Startcouponcodes.com), the platform earns an affiliate commission. All affiliate income from the site will be used to pay out the revenue share of members buying ad packs on [StartRevshare.com](http://StartRevshare.com).

### ➔ **Startsearchengine**

What would the internet be without a search engine? It's the first place 99%+ of internet users visit whenever they go online, hence the reason Google is the biggest online company on the planet. That's why the Start Network is building its own search engine which can be used by the community.

As the user base grows and more and more people use the search engine, so will the revenue generated by [Startsearchengine.com](http://Startsearchengine.com). The sky is the limit here, and that's good news as all revenue generated by the search engine will be used to pay out the revenue share of people buying ad packs on [Startrevshare.com](http://Startrevshare.com).

### ➔ **StartRevshare/forum**

A marketing forum is a place to learn about making money online and internet marketing in general. There are tons of marketing forums around who keep all the money they make for themselves. The [StartRevshare](http://StartRevshare) forum is the first marketing forum that will share all its revenue with people buying ad packs on [StartRevshare.com](http://StartRevshare.com).

In 2014 the Warriorforum was sold for millions of dollars to Freelancer.com. This means a forum is not only a great place to learn tips and tricks about internet marketing, but also a platforms that generates a lot of money. 😊

## **Getting Started**

So as you can see, [StartRevshare](#) will generate a lot of money from external sources as the community grows. Every platform will have a referral system in place so members of the community can refer new members and make even more money and help the community grow at the same time.

All these elements makes spending time on other Revshare sites futile, because there's only 1 site that will stand the test of time, it's built around the Start Network and it's called [StartRevshare.com!](#)

So what are you waiting for?

**[>>> Join StartRevshare.com here and be on your way to \\$250/Day!](#)**
